Summary

Computer Science student building high-performance backend and AI systems for real-world applications. Engineered production-grade systems serving **1,000+ users** with **<450ms latency** using **FastAPI and PostgreSQL**. Focused on distributed, fault-tolerant architectures, scalable system design, and performance optimization.

Technical Skills

Languages: Python, Node.js, GoLang, Java, JavaScript, TypeScript, SQL, Bash

Backend & APIs: FastAPI, REST APIs, WebSockets, Async Processing, API Design, Authentication (JWT), Middleware

AI/ML: LLM Orchestration, RAG Pipeline, Prompt Engineering, NLP, Vector Embeddings, Model Evaluation

Frameworks & Databases: LangChain, Tensorflow, Sklearn, PostgreSQL, Redis, FAISS, Supabase, React.js, Next.js, Vue.js

Systems & Tools: Distributed Systems, Microservices, Rate Limiting, Fault Tolerance, Caching, Docker, Git, Vercel, Render

Experience

CodeSpyder Technologies Pvt Ltd.

Pune, India

GenAI Intern

Feb 2026 – Present

- Managing a team of **6 interns** developing an LMS that scales to support **1,000+ users** and **100+ concurrent sessions**.
- Developed a **FastAPI & Next.js** backend using **PostgreSQL (SQLAlchemy)** via Supabase; developed **API Gateway & Rate Limiting** services for **~200ms CRUD latency**.
- Implemented **Llama 70B** model for AI-enabled mock interviews, tuned error management to reduce AI latency to **800–1000ms**.

CanSpirit Artificial Intelligence

Pune, India

Software Engineering Intern - AI

Aug 2025 – Feb 2026

- Developed an **Emotion Analytics Detection** system for disabled students, analyzing **1,000 videos** at **5 FPS**.
- Implemented an **Extra Trees** algorithm with **88% accuracy**, surpassing Deep Learning baselines, KNN (78%), and Random Forest (83%).
- Ensured steady **800–1000ms API latency** with pipeline logging and monitoring.

Projects

HireMintora – AI Recruiting Platform

[Live Link](#) | [GitHub](#)

- Problem:** The conventional approach to screening lacks automated coding analysis, leading to HR inefficiencies.
- Solution:** Real-time conversational AI using **WebSockets**, **Groq (Llama 70B)**, **TTS/STT**, **Monaco Editor**, and **Redis** context caching.
- Impact:** Implemented with **fault tolerance** handling **50 concurrent WebSocket connections**; automated reporting for **100+ users**.

AutoDeck AI – Autonomous Presentation Generation Agent

[Live Demo](#) | [GitHub](#)

- Problem:** Manual creation of structured presentations takes **30–60 minutes per deck** and lacks intelligent content generation.
- Solution:** Designed a multi-agent pipeline (planner–executor) using **FastAPI**, **JWT**, **Google OAuth**, and **GPT-3.5 Turbo** to generate **5–10 slide decks** in **<10 seconds** with dynamic image embedding.
- Impact:** Reduced manual effort by **80%** and enabled real-time, automated presentation generation with secure authentication and media integration.

AdvocateGPT – RAG Legal Assistant

[Live Link](#) | [GitHub](#)

- Problem:** Legal experts spend hours analyzing complex penal codes to find relevant precedents.
- Solution:** RAG pipeline embedding IPC text using **Hugging Face (text-embedding-3)** into **FAISS**, with **MS MARCO Cross-Encoder** reranking.
- Impact:** Verified retrieval effectiveness using **Precision@k**, **Recall@k**, and **MRR** metrics.

Achievements

- Research:** Contributed to **2 IEEE publications** in conferences related to applications of AI and data-driven systems.
- Problem Solving:** Solved **250+ LeetCode problems**, achieving a **1500+ contest rating** with strong DSA fundamentals.
- Certifications:** Completed Data Science & GenAI (*CodeSpyder*) and Java Fundamentals and DSA foundation (*Scaler*).
- Leadership:** Managed **10+ members** for Vishwaconclave, coordinating event setup across stage, lighting, and audio.
- Leadership:** Led **25 coordinators**, achieving **3,000+ registrations** during SWDC's Matadhikar campaign.

Education

Vishwakarma Institute of Technology (VIT), Pune

Aug 2023 - May 2027(Expected)

Bachelor of Technology in Computer Science Engineering (AI & ML)

CGPA: 8.39 / 10.0
